Need a secure document?

We can enhance the security of your integrated product with our vast range of security solutions.

Our integrated cards and labels are manufactured on our three Hunkeler and two Tamarack lines, with products available in the following sizes; 17", 20", 22" and 24", and as single-part, multi-part or sheets. With our advanced printing facilities, we can print in up to 10 colours.

In addition we can also offer a vast range of integrated magnets, die-cut windows, parking permits, visitor passes, photo cards, pockets and other value added products.

Our new product development team will be happy to work with you, to create unique eye-catching and cost effective solutions.

All integrated products are available as cut sheet and fanfold. Some products can also be supplied on reels.

Product training

We offer product training on the above.
