

SECURITY PERMITS

Trust the UK leader. Integrity has long been at the forefront of manufacturing parking permits. Our experience and advanced production facilities assure you of the highest standards of quality, reliability and expertise.

INTEGRITY
THE PRINT PROFESSIONALS

Our parking permits are designed to incorporate several highly effective security features to protect you against the risks of forgery and copying. Using our precision printing techniques, these high security features can be incorporated with complex background designs that discourage fraudulent copying. The permits can also be produced with distinctive integrated display holders.

Integrity offers a thoroughly dependable and comprehensively protected service for producing parking permits, operating from an APACS accredited secure site.

PRODUCT FEATURES

Hologram

A visible deterrent against counterfeiting using the unique and highly advanced S-security holographic foil. Hologram can have bespoke logo cut out for more visible branding.

Security numbering

Facilitates accurate audit control of your permits.

Lightfast inks

Specially formulated inks prevent the permit from fading during prolonged exposure to sunlight.

Laser compatible paper

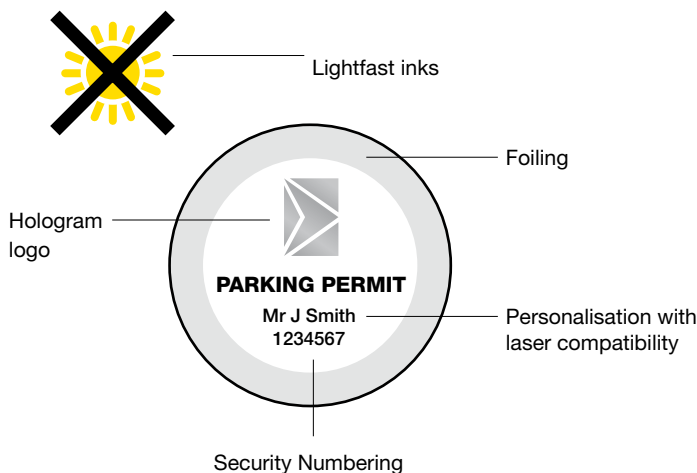

Allows permits to be personalised.

Carrier sheet

Optional adhesive laminated carrier sheet allowing the permit to be easily attached to the vehicle windscreen.

Foiling

Extra security features that also add value to the permit.
